

Protect the
pure joy
of home
with Terminix.[®]

TERMINIX[®]

We'll do whatever it takes to keep your home **protected.**

No one knows termites and pests like Terminix®. Founded in 1927, we were the first company in the U.S. to obtain a termite control patent. Today, we safeguard millions of homes from the threat of termites and pests throughout the U.S. and internationally.

As an industry leader, Terminix has delivered termite and pest solutions for more than 90 years.

Thousands of expertly trained technicians deliver effective solutions customized for termite and pest activity in your area.

Easily manage your Terminix MyAccount online, 24/7, on a computer, tablet or smartphone.

Termites and pests? Check. But we also offer a variety of other innovative solutions to keep your home protected top to bottom, inside and out.

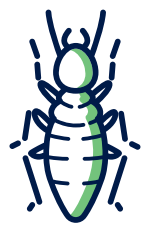

With the Terminix Promise™† we'll do whatever it takes to make sure termites and pests are gone — and stay gone.

† Treatments and Covered Pests defined in your Plan. Limitations apply. See Plan for details.

Termite Control

- + OnGuard™ Termite Protection System
- + Liquid Defend System®
- + Drywood Defend System®

Termites are always a threat.

Every day you go without termite protection, your home is vulnerable to damage.

Subterranean Termites enter from the soil below

Soldiers

Workers

Swarmers

1 Wooden Fences can attract termites

2 Piles of Firewood can attract termites

3 Cracks and Openings allow easy access

4 All Foundation Types allow easy access

5 Mulch can hide activity

6 Trees or Bushes may allow hidden access

7 Walls can hide an infestation

The average cost of termite treatment and repair is \$9,985.²

Most insurance plans don't cover termite damage repair and treatment.

Often, termite damage is unseen, behind walls and ceilings.

Termites can access homes through cracks as thin as a credit card (1/32 of an inch).

Termites can attack every kind of home.

Brick

Stucco

Stone

Siding

¹ According to the National Pest Management Association, termites alone cause over \$5 billion in property damage annually, a cost not covered by most homeowners insurance plans.

² Average repairs: \$8,566, according to 2018 survey of independent contractors in the Terminix network. Estimated treatment: \$1,419. Every home is different; repair and treatment costs may vary.

Don't wait for a termite infestation. Prevent one.

We're taking aim at termites — stopping infestations before they start. So don't wait for termites to cause thousands of dollars' worth of damage to your home. Protect it with our exclusive Terminix OnGuard Termite Protection System.

TERMINIX
OnGuard
TERMITE PROTECTION SYSTEM

Here's how it works:

- 1 Technicians strategically install a series of bait stations 10–15 feet apart in the soil to create a zone of protection around your home.
- 2 Bait stations start working immediately to intercept termites with a substance they prefer over the wood in your home.
- 3 The termites feed on the bait and take it back to their colony, which kills the remaining population.
- 4 Annual inspections by your expert technician monitor the stations for any signs of termite activity.

The Terminix Promise Plus™ means you can relax knowing we'll keep termites out of your home. And for as long as you keep your plan, we'll cover any additional treatments and repair any new termite damage.*

* TERMINIX PROMISE PLUS AVAILABLE FOR QUALIFYING HOMES ONLY. Not available in all areas. Limitations apply. See Plan for details.

» This active termite protection works year-round, stopping an infestation before it ever begins.

Now you can choose the right plan for your home.

Monthly AutoPay is required for all plans. If you choose to cancel your plan within the first year, an Early Termination Fee will apply. If termite activity is found during the initial inspection, there will be an additional fee for curative treatments or clean-out services. For qualifying homes only.

Other Termite Solutions:

No matter what type of termite may be in your area, we have a solution for your home.

+ Liquid Defend System

This perimeter treatment helps eliminate subterranean termite colonies and keeps them from invading again.

+ Drywood Defend System‡

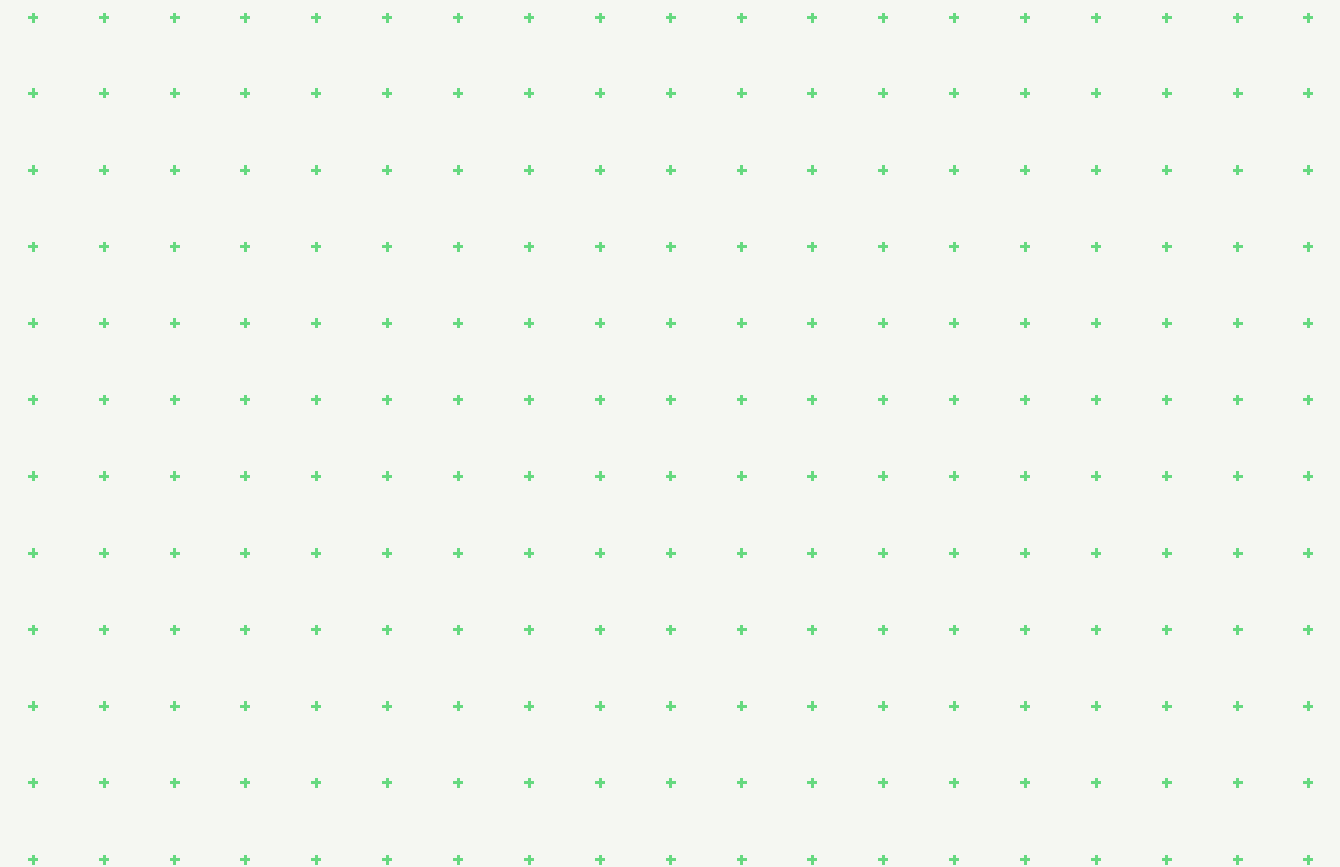

Our first-ever, specialized preventative treatment is proven to kill swarming drywood termites and help stop future infestations. This three-part treatment creates a zone of protection inside and around your home.

† Treatments and Covered Pests defined in your Plan. Limitations apply. See Plan for details.

* TERMINIX PROMISE PLUS AVAILABLE FOR QUALIFYING HOMES ONLY. Not available in all areas. Limitations apply. See Plan for details.

** Standard Covered Pests: cockroaches, mice, rats, silverfish, "house" ants (excluding carpenter ants, fire ants, pharaoh ants and tawny crazy ants), clothes moths, spiders (excluding black widow and brown recluse spiders), scorpions, centipedes, millipedes, earwigs, house crickets and paper wasps. Other pests not specified as Standard Covered Pests may be covered for an additional charge or under other plans.

‡ Drywood Defend System not available in all areas.

The Terminix Promise is our commitment to protect your home from termites and pests.

TERMINIX
PROMISE™

The Terminix Promise means you can relax knowing we'll worry about pests so you don't have to. And if they come back between treatments, so will we — at no additional cost to you.†

» Need help with a pest not shown here? Ask your Terminix professional for more information.

* Limitations apply. Other pests not specified as Standard Covered Pests may be covered for an additional charge or under other plans.

** Excludes brown recluse and black widow spiders.

There's no off-season when it comes to pest protection.

Summer

Summer heat means pests are very active. We'll make sure your home's perimeter is secure during this high activity.

Top pest threats:
Ants, Stinging Pests, House Crickets

Fall

As temperatures start to drop, pests start looking for a cozy place to hide. We'll make sure your home's protected.

Top pest threats:
Spiders, Rodents, Earwigs

Spring starts the breeding season for many pests. We'll work to take down any infestations that are starting to develop.

Top pest threats:
Ants, Spiders, Stinging Pests, Cockroaches

Spring

Pests will be more relentless than ever. We'll make sure your home's protection can handle this increased pest pressure.

Top pest threats:
Cockroaches, Spiders, Rodents

Winter

The Terminix Promise means you can relax knowing we'll worry about pests so you don't have to. And if they come back between treatments, so will we — at no additional cost to you.†

--	---	--	--

The Terminix Promise means you can relax knowing we'll worry about mosquitoes so you don't have to. And if they come back between treatments, so will we – at no additional cost to you.†

† Quick Guard Mosquito Service not available in all areas. Treatment terms defined in your Plan. Limitations apply. See Plan for details.

Now we protect against ticks, too.

Our Tick Defend System uses a customized approach for your lawn that attacks ticks from every angle to keep your yard tick-free and worry-free.

Here's how it works:

- 1 Inspect**
We perform an extensive inspection, identifying potential tick activity sites.
- 2 Prevent**
We recommend ways to adjust your outdoor space to make it less tick-friendly.
- 3 Treat**
Treatment begins working immediately, reducing the tick population in your yard.
- 4 Maintain**
Monthly service keeps tick populations down for more peace of mind.

The Terminix Promise means you can relax knowing we'll worry about ticks so you don't have to. And if they come back between treatments, so will we – at no additional cost to you.†

† Tick Defend System not available in all areas. Treatment terms defined in your Plan. Limitations apply. See Plan for details.

Rest assured, bed bugs have met their match.

Say goodbye to bed bugs while eliminating the hassle of preparation prior to treatment. Our unique, no-prep process uses a holistic and proven approach to control and eliminate infestations.

Here's what you can expect:

+ No-Prep Required

Some companies require extensive preparations. Our approach avoids disrupting you and your home. Bed bugs think they're safe. They're not.

+ Not Just Pesticides

We use a multi-faceted approach to solve your bed bug problem.

+ Encasements

No need to discard your bed. Our mattress and box spring encasements preserve your bed and continue to protect you, long after bed bugs are gone.

+ Detection + Elimination

Our interceptor devices detect bed bug activity to help us eliminate them quickly.

+ Continuous Follow-Up

We'll keep servicing your home for ongoing peace of mind.*

The Terminix Promise means you can relax knowing we'll worry about bed bugs so you don't have to. And if they come back within 6 months, so will we – at no additional cost to you.*

* If you see evidence of bed bugs in your home within 6 months of your initial treatment date, Terminix will perform an inspection and provide any necessary treatment at no extra cost. 6-month guarantee only available for single-family dwelling units. Excludes high-level infestations as described in your Plan. Limitations apply. See Plan for details.

More protection. More peace of mind.

Did you know?

We can protect your home with these additional services.

Home Services Include:

+ Rodent & Wildlife Exclusion

These critters can cause major damage to your home. We'll find the most effective way to keep them where they belong — in the wild.

+ Gutter Protection

Keep your gutters unclogged from leaves and debris to eliminate an oasis for pests — like mosquitoes, cockroaches and ants. You'll also be protected against overflow that can damage your home's fascia and eaves.

+ Attic Insulation

Our high-quality insulation can help lower your home's pest activity by killing certain pests. You can expect protection from cockroaches, ants and other insects.*

+ Moisture Control

Protect your crawl space from moisture and other things that come with it — like fungus, wood rot and even conditions favorable to termites and pests.
